

# Nokia 105 4G

Better connected than ever before.

## Key features:

There's nothing more important than connecting with family and friends. With the Nokia 105 4G, keeping in touch has never been easier - or more rewarding. Built with 4G VoLTE<sup>1</sup> capabilities, calls are so crisp and clear that those close to you will feel even closer. And when you're not calling, listening to FM radio and playing games will keep you smiling through your downtime - especially as its zoomed menus and Readout<sup>2</sup> text-to-speech function makes navigating your way around the phone as easy as can be.

## Closer connections.

Nokia 105 4G comes with 4G VoLTE<sup>1</sup> for next-generation voice capabilities and HD voice calling, so when you speak to someone, the connection sounds even closer.

## Easier to use than ever.

Zoomed menus and icons make navigation simple to use, and the new Readout<sup>2</sup> feature talks you through what you're doing, as you're doing it - making this possibly the most helpful phone you'll ever use.

## A modern classic that's built to last.

Nokia 105 4G lives up to the promise of quality you've come to expect. Built to last and designed to impress, it comes with a long battery life and is a perfect fit for your pocket. But with three stylish colours to choose from - Blue, Red and Black - hiding it away will be the last thing you want to do.

## Packed with everything you want, nothing you don't.

Nokia 105 4G is more than just a phone. It has both a wireless and wired FM radio, a bright torch, and comes with a bunch of games. Also, thanks to 4G, it connects to the internet in an instant. All of this, in the palm of your hand.

## Nokia 105 4G sales package includes:

- Nokia 105 4G device
- Battery
- Quick start guide
- Micro-USB charger
