1. Backwards compatible with previous USB versions.

2. Resolutions based on DP 1.4 of the input signal of the connected device. If the input signal of the connected device is compatible with DP 1.2, only 4K (3840 x2160@60H) can be supported as the max resolution for all three video interfaces (i.e. USB Type-C, DP port 1 & 2) in single, dual, and triple display configuration.
