

Targus® Compact Combination Cable Lock - Nano Slot

- Compatible with Kensington Nano® lock slots
- Pre-set 4 wheel combination lock with a potential 10,000 possible settings to deter theft.
- Keyless solution, no master key required
- Tough, cut-proof 2 m (6.5 ft) galvanised steel cable
- 360° rotating head for easy fitting.
- Ideal for slim devices

Secure and protect your organisation's Kensington Nano® lock slot compatible laptops with this combination cable lock - an ideal choice for the office, school, hotels, or other high-risk areas. The easy-to-use design includes a cut-proof and rust-resistant 2 m (6.5 ft) galvanised steel cable with pass-through loop and rotating lock head. Nearly impossible to destruct. Any attempt to remove it will noticeably damage the device – a further deterrent to thieves. Each lock is assigned a unique combination and serial number, delivering freedom from key-carrying. Lose your combination code? No problem. Your IT Manager has access to all combinations via a secure password-protected web site. Ships with 25 locks.
