Quick Start Guide

Smart Temperature and
Humidity Sensor

Meet Your Temperature and Humidity Sensor

Measure the temperature and humidity of the environment and send you instant notifications when the environment changes. It is suitable for green houses, bedrooms, nursery, incubators, and wine cellars.

- Sensor Detector
- LED
- Battery Pinhole
  Use a pin to press and remove the cover
- CR2450
- Reset
- Reset Button
  Single press: Effective range test
  Press for 5s: Reset and enter pairing mode
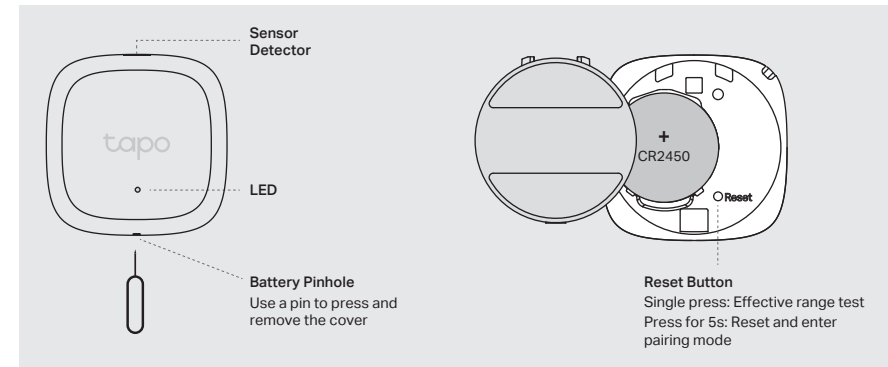

! Before You Start

A Tapo Hub is required. Make sure your Tapo Hub is successfully added via the Tapo app.

App Store

GET IT ON
Google Play

OR

1 Power Up Your Sensor

Remove the battery insulation tab to power up your sensor. The LED should blink.

Note: If the LED is not blinking, use a pin to press the Reset button for 5 seconds to reset your sensor and enter pairing mode.
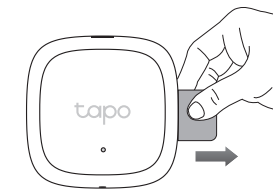

2 Set Up Your Sensor

Open the Tapo app and tap the ⊕ button. Select **Sensors** and then your model. Follow the app instructions to complete setup.

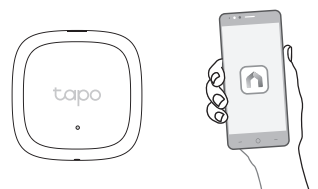

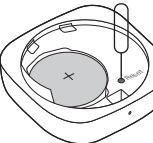

3 Test Your Sensor

Take your sensor to the preferred location.

Option 1
Single press the Reset button. Your hub should make a voice prompt.

Option 2
Blow on the sensor detector. The temperature and humidity displayed on the Tapo app should change.

4 **Place Your Sensor** (The installation height should not be higher than 2 meters.)
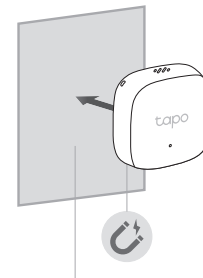

Option 1: Hang with the Lanyard

Option 2: Use Adhesive Magnets

a. Stick the included adhesive magnets to the back panel.
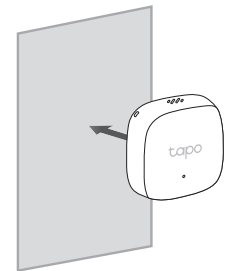

b. Magnetically attach the sensor to metallic surfaces.

Warning
This product contains a coin / button cell battery. If the coin / button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
Keep new and used batteries away from children.
If the battery compartment does not close securely, stop using the product and keep it away from children.
If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Warning
Risk of explosion if the battery is replaced by an incorrect type.
