The image shows a series of six steps (B-1 to B-6) for assembling a device. Step B-1 shows a hand cleaning a surface. Step B-2 shows two steps: 1. Removing a protective film from a component. 2. Inserting a component into a base. Step B-3 shows a hand pressing a component into a base, with a 10-second timer and an 'UP' arrow indicating the direction of movement. Step B-4 shows a component being inserted into a base. Step B-5 shows a component being inserted into a base. Step B-6 shows a component being inserted into a base.
