

Loop 100 USB-A Wireless Adapter

Connecting OpenComm to computer via Shokz Loop 100 delivers a more seamless user experience.

Price: \$49.95 USD

Just plug Shokz Loop 100 into the USB-A port on your computer, and it's ready to go, with no manual settings needed! OpenComm is PC compatible and works well with major communication platforms via Loop 100.

If you are a Mac user (MacOS 10.15X system* or later), follow these instructions:

When you plug the adapter into your laptop for the first time, choose "Shokz Loop 100" as the default input and output devices in "Sound Preferences". For future use, you will not have to change settings manually.

*OpenComm currently does not support MacOS systems before MacOS 10.15X

SPEC
