The DGS-1008D 8-Port Gigabit Desktop Switch is part of D-Link's series of SOHO devices that allows you to easily expand and upgrade your network. D-Link's Green Technology provides energy savings, reduces heat, and a longer product life without sacrificing performance or functionality. DGS-1008D provides five Gigabit ports for easy expansion of your network and a quick way to upgrade your network to Gigabit connectivity. An energy-efficient power adapter (EnergyStar Level V qualified), minimised use of harmful substances (RoHS compliant), and recyclable packaging make this switch truly environmentally friendly.

## Fast and Reliable Networking

The D-Link DGS-1008D 8-Port Gigabit Desktop Switch creates a blazing fast network for your office, as its Gigabit Ethernet ports provide high-speed wired connections for up to five PCs or other devices. The DGS-1008D also features QoS, which prioritises network traffic so that time-sensitive data is delivered efficiently, even during bursts of high data traffic. It's stylish, easy-to-use, and comes IPv6-ready for a reliable network today and tomorrow.

## Conserve Energy

The 8-Port Gigabit Desktop Switch helps you conserve energy automatically through several methods. It automatically powers down ports that have no link, allowing the switch to save a substantial amount of power by cutting power usage for unused ports or ports connected to computers that have been shut down.
