GO Navigator offers TomTom-exclusive features & specs. In order of importance:

TomTom Traffic*

Get detailed alerts on upcoming roadblocks, accidents and traffic jams, and receive accurate ETAs. TomTom Traffic subscription included at no extra cost.

Speed camera alerts**

See danger zones, mobile speed cams and fixed speed cams along your route ahead of time. First 12 months free of use. Once the trial period ends, you will be informed on how to renew your services.

Large 7" touchscreen and powerful speaker

Follow your route on a crystal-clear 7" touch screen for safer drives, and hear every cue easily, thanks to a powerful speaker that's capable of cutting through noisy engines.

TomTom's unique mounting solution

No struggles with constantly plugging cables in and out your sat nav. Simply place GO Navigator in the robust mount and take it out whenever you leave the car, whilst the cable remains in the mount. This exclusive TomTom design further enhances your user experience.

Trusted TomTom maps, Europe coverage

Experience European wide coverage with the most accurate, up-to-date maps on the market. Updates are included and are offered every month.

Effortless Wi-Fi® updates

Ensure your map is always up to date by connecting your sat nav to a Wi-Fi® network. No cables or computers required.

TomTom Services

Live fuel prices, off-street parking availability, EV charging stations and weather information. First 12 months free of use. Once the trial period ends, you will be informed on how to renew your services.

Moving lane guidance

Take the correct exit and navigate complex intersections with ease, thanks to crystal-clear lane guidance.

Know the road ahead with the RouteBar™

The summarized route overview in the RouteBar, is a unique TomTom navigation element. It brings peace of mind and a sense of familiarity to those having owned a TomTom product before.

Voice control

Keep your hands on the wheel and control TomTom GO Navigator simply by speaking.

Avoiding low emission zones

Low emission zones can be inconvenient – especially if you drive an older vehicle. But by activating the new 'avoid LEZ' feature, you won't have to worry about them again, as TomTom GO Navigator will automatically exclude these zones from your route.

No more missed exits with Enhanced visual cues

This recently introduced, innovative feature is designed to keep your eyes on the road, and triggers your attention when your action is required, such as upcoming exits, turns, speed cameras or lane changes. See it to believe it.

Convenient connection

Sick of cable confusion? GO Navigator sets a new standard with USB-C connection – the industry standard for all portable electronic devices.

Personalize your sat nav

TomTom GO Navigator allows you to personalize its look. Change the map color, route line and other elements to reflect your preferences – or even improve visibility.

MAP COVERAGE
