GAN Wall Charger 2xUSB-C 30W PD

Features:

- 2xUSB-C: 30W Power Delivery
- Ultra slim design with GaN Technology
- Automatic adaptor for power sources between 110V/240V
- Charge optimization to protect the battery;
- Protection circuit against overloads and short circuit.

Compatibility:

Smartphone, tablet and small accessories

DESCRIPTION:

GAN SLIM 30W PD is the ultra-compact charger, ideal for charging small accessories, smartphones, or tablets.

Featuring an ultra-slim design, this wall charger has **two USB-C Power Delivery 30W ports**, and is also compatible with Samsung's Super Fast Charging 25W. When both ports are used simultaneously, they provide 15W each.

This charger is equipped with **GaN technology**, which is based on gallium nitride, a material recently used in semiconductor chargers. The main advantage of gallium nitride, in relation to chargers, is that it produces less heat. The reduced heat production allows components to be placed closer together, thus reducing the overall size of the chargers.
